**B**ROOKLINE is a town of high civic standards, of beautiful homes, of steadily increasing size and importance among the cities and towns of Massachusetts and New England. Because of its proximity to Boston and its unusual advantages as a place of residence, it is destined to grow and expand much more rapidly than most other municipalities.

Brookline is one of the oldest municipalities in the Commonwealth, having been a separate township for two hundred and thirty-five years, and for seventy-five years prior thereto a part of the settlement of Boston.

The town now covers an area of about 6.8 miles with approximately 90 miles of streets and about 180 miles of sidewalks. The population of the town is about 54,000 and the report of the Assessors establishing a tax rate of \$26 for the past year gave the valuation of the town as \$158,978,500, including \$145,564,800 on realty and \$13,413,700 on personal property.

Through wise administration of municipal affairs by competent officials on a strictly business basis, Brookline has developed notable school and recreational systems, unexcelled police and fire departments, a water supply and sanitary system that compares with any community, and parks and highways that are among the best.

Geographically, the town is a part of the territory of the metropolitan city of Boston and in many respects is as much an integral part of that city as any other section within the same radius. Situated southwest of the central part of the original peninsula on which the old town and city of Boston is located, Brookline approaches in its nearest part to but little more than two miles in a direct line from the State House, while its most remote boundary is only about six miles away. The territory is oblong in shape and is a rolling country with many hills, the highest, in the western part of the town, rising to between three and four hundred feet above tide water. The town is surrounded on three sides by Boston proper or what are now sections of that city, and touches the city of Newton on the fourth side. It is entirely isolated from its county of Norfolk and most of the town boundaries have been adjusted several times since originally laid out.

Every City must have a Directory not only to give the names and addresses of its citizens, but also to give that character of progressiveness that would record the names of its people for historical purposes. Every one has forefathers, these forefathers have made the history of this country; some day you will be the forefather and your descendants can visualize your life's work quicker through the registration in the Directory of your time than in any other way. The BIOGRAPHICAL HISTORY OF THE MASSES IS CONTAINED IN THE CITY DIRECTORY AND IN NO OTHER PLACE. That stamps its importance to the family. To make your history, watch your directory registration to see that it accurately records your position in life from year to year.

# BROOKLINE

The publishers of this Directory consider it advisable and desirable to set forth the following paragraphs, in as simple and attractive a manner as possible, to enable the readers of these descriptive pages to comprehend as many of the outstanding features of Brookline as limited space permits. To portray Brookline's charm consistent with facts. We believe with John Cotton Dana, the great librarian, that "Good citizenship springs from a knowledge about one's own community." The teachings of the City Map and the City Directory about localities, districts, street locations, street changes, growth of sections and general city changes are of great importance to property owners, old residents, new residents and school students. Racial characteristics of names in the Directory enable the consultant to gain a very comprehensive knowledge of the inhabitants of the city and many other educational facts. Notable men all through history have contributed their philosophy as to the value of knowledge about the home town. Here is one from Abraham Lincoln: "I like to see a man proud of the place in which he lives. I like to see a man live so that his place will be proud of him." In studying the following remember that the Brookline City Directory disseminates this information far and wide where this Directory represents Brookline in the Free Directory Library Exchange System of North America. The Brookline City Directory, with nearly 700 closely printed pages, is the City of Brookline in book form; its family and social life, business and industrial life, is portrayed in great detail.

**LOCATION**—Brookline is noted as the largest town with town government in the country. It has tenaciously clung to this form of government, surrounded as it is by cities, because there is a belief here that it is the most democratic form existing anywhere today. It lies close to the heart of the Metropolitan District of Massachusetts. It is impossible to tell when entering and leaving Brookline because of the density of population and homes and business places filling it to the brim. It is less than five miles to the heart of Boston and on three sides is bordered by Boston. On the west it is bordered by Newton. It is 37 miles to Worcester, 5 miles to Cambridge, 40 miles to Providence, 85 to Springfield, 250 to New York, 115 to Portland, 85 to Concord, 100 to Hartford, 249 to Bangor, 241 to Montpelier, 180 to Albany, 450 to Washington, 1025 to Chicago, 160 to White Mountains.

**POPULATION**—The growth of Brookline in population has been fairly rapid and steady for many years. The estimate for 1944 is close to 55,000. In 1910 there were 27,792 residents here, in 1920 census 37,748, in 1930 census 47,490. There are 11,489 families; 3,720 home owners. 66.8% of population is white, 32.8% foreign born, 3% negro. Population 1800 was about 605, and 1900 had grown to 19,305. 1790 first census 484.

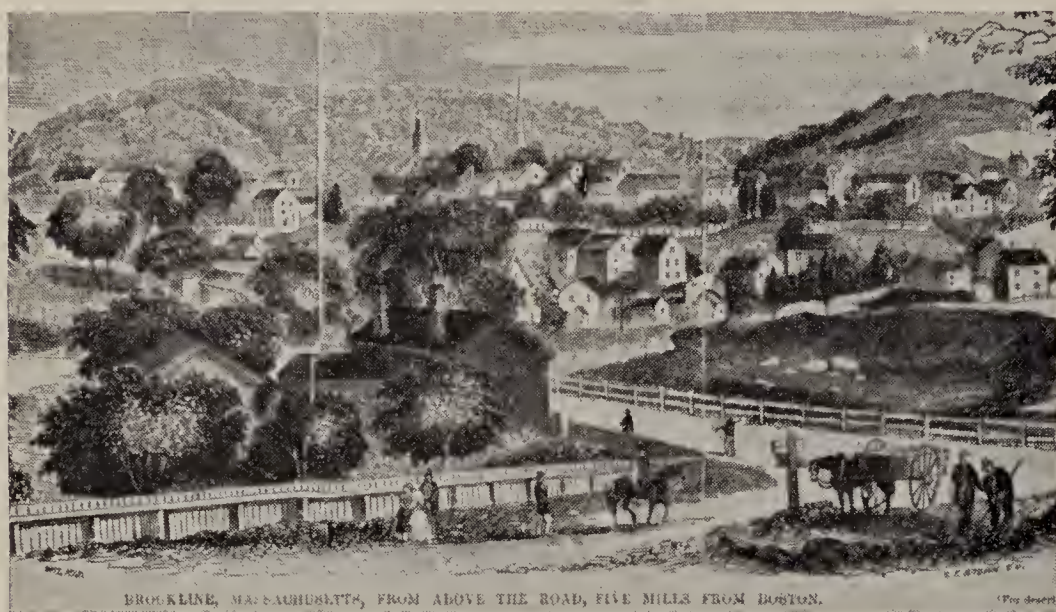

**TOPOGRAPHY** — Brookline has a very beautiful terrain, a rolling land with many winding streets to fit the landscape, beautiful homes on high spots afford a picturesque beauty not often found in urban communities. It covers 6.81 square miles. The altitude runs from 17 to 359 feet above sea level. There is no waste land in Brook

line, it is all adaptable for residence and business use. The main thoroughfares run over hill and dale through business and residence sections to the various squares that make Brookline an unusual town. There are 85.97 miles of streets.

### BROOKLINE IN THE EARLY EIGHTEENTH CENTURY

homeside, 511 Chestnut Hill Avenue; Theodore Lyman House, 105 Heath Street; "Richards Tavern," Heath Street at northeast corner of Hammond; Country Club, 191 Clyde Street; "Faulkner Farm," 280 Newton Street; Mt. Walley estate, 55 Mt. Walley Avenue; "Weld," 64 Avon Street; Goddard's Homestead, 235 Goddard Avenue; Davis-Cabot-Goddard House, 215 Warren Street; site of Homestead of Peter Aspinwall, 89 Aspinwall Avenue; site of John Sharp House, 124 Harvard Street; site of Griggs Farm about 555 Washington Street; site of Dr. William Aspinwall; site of First Parish House, 371 Walnut Street. In 1785 there were 50 families in town. In 1740 there were 61 dwellings in town. First cemetery on Walnut Street. It is probable that the name of Brookline was taken from Judge Sewall's farm called "Brookline." At the beginning of the century there were about 50 families and a population of 300.

**INDUSTRIAL**—Brookline is not an industrial town. It has always been one of select residence. However there are activities that should be mentioned in connection with a complete coverage of Brookline. Greeting cards, knitted fabrics, automobile bodies, nautical instruments, printing and publishing, confectionery, etc., are covered in the products made here. Brookline is well placed for manufacturing, the labor market of the great Metropolitan District is at the disposal of Brookline employers when wanted. If it becomes desirable to develop Brookline's resources of manufacturing possibilities, it can well become an industrial center.

**COMMERCIAL**—There are 341 retail stores in Brookline, having 246 proprietors, with 2,035 employes, with a payroll of \$2,423,766. Annual sales \$18,765,315. There are sixteen major products distributed. There are 4 wholesale establishments with 70 employes, proprietors and officials. Payrolls of \$135,804. Annual sales of \$1,855,358. Brookline has about 3 miles of store frontage mostly concentrated in Brookline Village district, Coolidge Corners, Harvard Square, Washington Square, Washington Street. Modern transportation has more or less scattered the mercantile business of Brookline into neighborhood distribution. There are nearly 300 professional offices. The trading population is over 75,000.

HARVARD STREET OFFICE BUILDING

**FINANCIAL**—There are 5 financial institutions in Brookline with 2 trust companies, 1 savings bank and 2 cooperative banks. Deposits in commercial and savings banks are nearly \$50,000,000. The cooperative banks are well established and active institutions with assets over \$6,000,000. Total resources of all the institutions over \$60,000,000 in 1944. Assessed valuation of property within the city is \$158,978,500. Wealth per capita among the leading municipalities of the state.

**HISTORICAL** — For 75 years from 1630 to 1705 the territory comprising present Brookline was a part of Boston and was referred to as "Muddy River" and "Boston Commons." In 1686 petition was made to separate it from Boston, but not until 1705 was it granted when it became Brookline. Places of interest are as follow: Edw. Devotion House, 347 Harvard Street; Sewall Stearns House, 265 Harvard Street; Punch Bowl Tavern, 97 Washington Street; House built by Zabdiel Boylston, physician; Isaac Gardner

### GROUP OF SCHOOLS AND OTHER PUBLIC BUILDINGS

**EDUCATIONAL**—The public schools system of Brookline is high class. There are 11 public schools including 1 senior high school. Number of pupils 6,600. Teachers 290. Value of property \$4,326,800. There are 2 parochial schools with 1200 pupils. There are 8 private schools. There is a public library system with a main building and 3 branches with 169,640 volumes. The nearest City Directory library is maintained by the publishers of the directory, The H. A. Manning Co., at the Cambridge Chamber of Commerce and which is for free reference use by person or telephone, located at 500 Memorial Drive telephone Trowbridge 4100

**BROOKLINE BAPTIST CHURCH**

Three golf courses. Brookline shares the advantages of the shore and beach resorts of the Metropolitan District.

**T-RANSPORTATION**—The Boston & Albany Railroad passes through Brookline from east to west. There are five stations. There are 3 miles of electric railway operating as an extension to the Boston Elevated system, cross town traffic is handled by motor bus lines. The famous Worcester Turnpike passes through from east to west. Brookline shares with the Metropolitan District the finest highways radiating in all directions on two, four, and six lanes. Horsecars began running in Brookline in 1858.

### RELIGIOUS AND BENEVOLENT—

There are 21 churches representing 12 denominations. These church edifices placed well over the entire township add much to the beauty of the town. There are 17 hospitals, homes and asylums. The fraternal and club life is extensive, and is composed of nearly 100 well organized, some with excellent quarters in their own buildings and grounds.

**RECREATIONAL**—There are in Brookline 3 public parks, valued at \$2,617,280; 19 playgrounds; 7 public squares. The athletic field of Boston University is located in Brookline. # The Churches

**WITH A TOTAL OF TWENTY CHURCHES, representing the leading denominations, Brookline is well represented in its Religious Institutions**

These noble edifices placed at intervals about the city add much to its attractiveness and charm.

It is the belief of many Brookline citizens of vision that this full and adequate supply of churches is one of the greatest of the many resources of our city.

That for newcomers it is a factor that makes for the ready assimilation into the religious and social life of the community and hastens the time required to make citizens of the strangers who come to us.

The Church of today is the greatest of all institutions for the planting of good thoughts in the minds of the people and stands as the bulwark against the degrading influences that surround us.

Therefore let us give a thought to these institutions that form so great a part of our city life and in visualizing our future greatness, let us remember their value as

*“That They May All Be One”*

These words are from the prayer which Jesus voiced on the night of his betrayal on the behalf of his disciples and of those should believe through their word.

Here is a desire of our Master which the imminent shame and suffering of the cross could not eclipse—the desire for the unity—the perfect fellowship of His people.

The very purpose of His death according to Paul in the Ephesian letter was to abolish the existing barriers between men and unite all “in one body by the cross.” (Eph 2: 11-16)

The most obvious implication of His great revelation of the Fatherhood of God is the brotherhood of man.

The violation of this brotherhood, the failure to achieve this holy fellowship for which He so earnestly prayed and which was the object of His death is the unthinkable sin of professed Christendom.

We propose a return to the spirit and the letter of New Testament Christianity as the valid basis of the unity of all believers in Jesus Christ. We plead that men be only Christians in the fullest and highest implication of that name. We desire fellowship with all men in the church of His love which He bought with His blood.

Let all men who believe in Christ unite. Let all “speak the same thing.” A dying world needs His message not a “Babel”—or confusion of tongues.

God alone cannot answer the prayer of His son; but believers can answer His prayer.
